

Travel Program

Philosophy

The philosophy of the Schuylkill County Youth Soccer Association (SCYSA) Travel Program is on *player development*. This is and will continue to be the cornerstone of the program. Additionally, the philosophy is to provide, foster, and perpetuate higher level soccer while not losing sight that it is still the player's game. This is provided regardless of a player's gender, race, socioeconomic status, or ethnicity and is designed to foster the physical, mental, and emotional growth of the individual as both a player and productive citizen in the community and our country.
